Welcome

University of the Pacific

Stockton, California

In the heart of California

The Pacific Experience

California's First University

Founded in 1851, **University of the Pacific** is California's first chartered university. Pacific's main campus is in Stockton, California, with additional campuses in San Francisco and Sacramento. Students learn in an inspirational setting of red brick buildings adorned with ivy, lush greenery and open courtyards. Pacific offers more than **80** undergraduate and graduate programs in nine schools and colleges, including engineering, business, education, international studies, music and dentistry.

A Tradition of Excellence

Pacific has a tradition of innovation and educational excellence in which dedicated teaching, small classes, practical experience, community outreach and a vibrant residential life combine to create a superior student-centered learning experience. Pacific is consistently listed among the top national universities by *US News & World Report* and continues to attract top faculty and high-achieving students from across the country and around the world.

Accessible Faculty and Staff

Pacific professors are known for their dedication to mentoring students. To assure the success of each international student, Pacific's International Programs and Services staff provide the personalized services to help with their adjustment to life on campus.

From Lake Tahoe in the Sierra Nevada mountains to the city lights of San Francisco Bay, major Northern California destinations are within an easy drive.

Academic Excellence

Accelerated Professional Degree Programs

A range of accelerated programs facilitate earning undergraduate and graduate degrees in fewer years than comparable programs in business, education, law and the health sciences.

Practical Outcomes

Within six months of graduation, 97% of Pacific students are employed or in graduate school. Over half of Pacific students participate in internships or co-ops, and 99% say the skills they gained from experiential learning made them stronger job candidates. Nearly all engineering students over the last decade (more than 1,000) have participated in paid internships, earning more than \$12 million in salary while sharpening professional skills.

A Vibrant Living Community

Pacific's more than 125 student clubs and organizations and a comprehensive recreation program in state-of-the-art facilities provide activities to meet every interest. University-sponsored festivals, concerts, plays and art exhibits provide a rich cultural experience, and prominent world leaders and performing artists come to campus each year.

Real-World Learning

Students gain practical experience through a wide range of experiential learning opportunities, including internships, co-ops, research, education abroad, community service and student leadership.

Pacific sits in the heart of the Central Valley's fertile farmland near California's celebrated Napa, Lodi and Calaveras wine country.

Admission Information

Admission

Admission is based on academic achievement and English language proficiency. To apply, you must:

- Submit an undergraduate admission application and personal statement.
- Send official records of study, including copies of any certificates of study or relevant external examinations.
- Send one letter of recommendation (*written or translated in English*) from a teacher, school counselor or educational professional.
- Have the TOEFL or IELTS exam sent to us if your native language is not English. Minimum accepted scores are: TOEFL — 61 IBT, 173 CBT and 500 paper; and IELTS — 5.5. For the PharmD, graduate and professional programs, minimum accepted scores are: TOEFL — 80 IBT, 213 CBT and 550 paper; IELTS — 6.5.
- Provide official documentation of financial responsibility.
- If you are applying to Pre-Pharmacy, Pre-Dentistry, Biology, or Chemistry-Biology, send SAT or ACT test scores.

International Scholarships

University of the Pacific awards merit-based International Student Scholarships of \$10,000 annually to new freshmen and transfer students with at least a 3.5 GPA or above. International students are also eligible to apply for the Powell Scholars Program, which awards an annual scholarship of \$15,000 plus additional awards for academic research and international study.
