Heyborne Leadership Academy 2009-2010

University of the Pacific

*3 college credits
Certificate of Completion*

*A Saturday morning enrichment clinic that
strengthens students' basic academic skills.*

The Heyborne Leadership Academy believes that leadership development begins with a higher "basic academic skills" foundation than the normal college freshman possesses. Primary goals are:

- Increase your basic math and verbal skills
- Learn the latest techniques of study skills and success-oriented academic performance strategies
- Receive modern leadership training

The Heyborne Leadership Academy is for the serious student who desires an accelerative opportunity for taking their potential to the limit. (There is no homework required for the program.)

*Past participants have seen
their Algebra-Trig abilities
increase 14% on average.*

Teaching staff

Ed Doell, English Instructor

Ed Doell received advanced degrees at California State University, San Francisco with subsequent further research and study at the University of Arizona, Tucson and the University of California, Santa Cruz.

A career college and university educator, Ed is focused on the Humanities, the Arts, and Communication Skills. His academic and personal interests range from poetry, fiction, and cinema to mythology, photography, music, Central Asian ethnic textiles and clothing, and American antique audio. Ed received the Alpha Gamma Sigma award for teaching excellence.

Andrew Pitcher, Mathematics Instructor

Andrew Pitcher has a B.S. in Math from Pacific and an M.A. in Math from the University of California, Davis. He has been teaching math at Pacific since 2003. He works daily with students who are developing their math skills, preparing them to be successful in higher level math.

Leadership Presenters

Elizabeth
Griego

John
Carvana

Daniel
Shipp

Vice President for Student Life, Dr. Elizabeth Griego, and her two Assistant Vice Presidents, John Carvana and Daniel Shipp will be giving special leadership presentations.

Why would a strong student want a review of algebra & trigonometry?

Many students first take algebra in junior high school. Their subsequent high school courses do not always provide enough practice to keep the skills honed. Trigonometry is sometimes taught without sufficient practical applications, so students do not see the techniques as useful tools. Many college courses assume that students can use the concepts effectively and efficiently. However by that time, six to eight years may have elapsed and many basic skills are rusty or forgotten.

Mathematics education has moved away from requiring a large number of repetitions to help students truly master certain skills. Math is normally taught in a sequential fashion wherein many important basics are covered once and mastery is assumed. This cursory review will acquaint students with previously learned concepts and will refresh students' command and comprehension of mathematics.

Support staff

Dr. Gary Martin, Director

Dr. Martin is an Assistant Dean at Pacific. He has a background in pupil-personnel services, career counseling, and education administration. He is the author of the book, "Welcome to the Professional World."

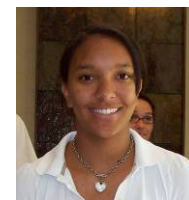

Ross Yeager, Student Advisor

Ross is one of the top leaders on the Pacific Campus. He has completed Pacific's Peer Advisor training, equipping him to assist the director and teaching staff with academic and personal support. Ross has also served as the student vice-president for Pacific's Associated Engineering Student Society, along with volunteering for numerous organizations such as Walk for Life.

“The Heyborne Leadership Academy

smoothed my transition from high school to college here at Pacific. Thanks to the program, I am far more confident and prepared in all of my classes and leadership positions held around campus.

-Ashley Hauss
Speech Pathology Student

Leadership training in college

Should everybody train for leadership? Yes. All college graduates are destined to assume countless leadership responsibilities, along with even more “followership” roles. Both are equally important, and both are enhanced through this academy.

All participants will receive:

- Three college credits*
- Attractive certificate of completion which can be noted on the student's personal résumé.*
- Complimentary copy of the book, *Welcome to the Professional World: Seven Success Principles for Entering the Workforce*.
- Polo shirt with the Academy insignia embroidered.

*70% attendance required.
