Pharmacy Health Sciences campus - north of the Calaveras River

Stockton, CA

(A map and directions available at <http://web.pacific.edu/x4289.xml>)

"Delivering Youth-Friendly Pharmacy Care"

PHARMACIST CE TRAINING PROGRAM

Are you interested in addressing the critical issue of unintended teen pregnancy?

- California's teen birth rate (37.8/1000) and the national teen birth rate (41.9/1000) are far higher than other Western democracies (9.2/1000)
- Four in ten pregnancies (39%) among youth results in abortion - indicating a need for strategies to avoid the risk of unintended pregnancy due to unprotected sex

You're invited to attend an innovative CE training program on Youth-Friendly Pharmacies

This **FREE one-hour CE training program** includes:

- Strategies for pharmacies and pharmacists to be youth-friendly and culturally competent in serving youth on reproductive and sexual health topics (including advice from youth themselves)
- Minors' rights and confidentiality
- Coverage and insurance issues impacting youth access to health services
- Overview of social networking strategies youth use (e.g. YouTube.com and MySpace.com) and opportunities around reproductive health
- **0.1 CEU CAPE Accreditation (1 hour live CE)**

What's in it for you?

- Making your pharmacy "youth-friendly" is surprisingly simple when you know how
- Enhancing your communication skills will help you provide services that are "culturally-relevant" for your adolescent clients
- Upon training completion, **your pharmacy will be promoted** among youth-based organizations **as youth-friendly and featured on Pharmacy Access Partnership's website.** This is good for your business development and PR efforts!

RSVP to Marisella Guerrero at gbp1617@att.net or 209-948-6435.
