

# Pharmaceutical Care Clinic MUST™ Program

## Medication Use Safety Training for Seniors (MUST™)

The program is **FREE** and designed to be educational and interactive. It promotes safe and appropriate medication use by enabling participants to:

- Avoid medication misuse
- Recognize and manage common side effects
- Improve medication use knowledge, attitudes, and skills to avoid medication errors.

### The program offers:

- General group education with the opportunity for questions and answers
- Private, individualized consultation services can be scheduled by appointment after the program to review all medications, over-the-counter drugs, vitamins-minerals, and herbal remedies for possible medication-related problems.

**IMPORTANT:** The information and suggestions provided through our services are not a substitute for those of your primary care provider.

UNIVERSITY OF THE  
**PACIFIC**
