

# 2009-2010 Housing Assignment Request

The University of the Pacific offers a variety of living arrangements. Space is limited. If you do not get your first choice, you will be assigned to your second or third, depending on availability. Assignments will be made based upon one of the following: a) for current students priority will be based upon the number of semesters on campus and of units completed; b) for new students priority will be based upon the date the Housing Deposit was received in the Housing and Greek Life Office. **In the event you do not receive a certain room or apartment style, please note that you will still be bound by the student housing contract for the period indicated.**
